Gondola Pizza

Since 1970

"In 1962, a newly married couple by the names of Onorato & Josephine, left their hometown of Balestrate, Italy with the hopes and dreams of opening their own restaurant in America. The young couple embarked on their journey and immigrated to California. Upon arriving, they began to work towards their goal with hard work and dedication.

Onorato & Josephine, being the first in their families to brave this journey, strived and worked towards their dream to make it a reality. Then in 1970, Onorato & Josephine were finally able to open their dream restaurant, Gondola Pizza in La Mirada, California. With the goal of introducing high quality foods into the community where they lived. They brought their traditional family recipes, and began making homemade sausage, meatballs, sauces, soups, pastas and of course pizza, using only the best and the freshest ingredients.

Onorato & Josephine have retired, but their children and grandchildren continue to uphold their traditions and the cuisine that has established them as the pioneers who brought quality Italian food into the community. Many generations have come through these doors and have become a part of our family. And with the help of our family and staff, we hope for many more generations to come."
